

ATTEMPTS TO KILL CRIPPLED DAUGHTER

This After Trying to Bribe Her
Not to Testify Against
Him.

THREATENS OTHER CHILDREN

His Daughters Ran Away and
Hid—Giddings Now Under
Arrest in Hospital.

WINSTON-SALEM, N. C., July 23.—Thomas Giddings, an old man, who was arrested about ten days ago on the serious charge of assault upon his oldest daughter, Miss Jennie, who is a cripple, and sixteen years of age, attempted to kill her early to-day at their home in North Winston, and her life was only spared by the rusty pistol in the hands of the father failing to fire.

Giddings, who claims to be sixty-nine years old, confessed to the officers that it was his intention to kill Jennie and her mother. The girl said that the father ever since he gave her the money, had endeavored to persuade her not to testify against him at the trial which will probably come up in the Superior Court this week. It is claimed that he offered Jennie \$100 in cash, and his second daughter, Maude, \$50 if they would go on in the stand and say that the story first told in regard to the assault was false. This they promptly declined to do. This morning the old man got his pistol, a five-shooter, and told Jennie that he had decided to kill her and then commit suicide if she would not comply with his request not to swear against him. He attempted to fire the pistol several times with the muzzle toward the girl. The daughter was greatly excited, the youngest one ran upstairs, she was followed by her father and she is inclined to believe that he intended to kill her, too, but she got in a room and locked the door. Giddings alleged that he drank a bottle of rum, and that he would be lynched for attempting to kill his daughter. He is in a hospital to-night under guard.

JUDGE AND COUNSEL IN ROWLAND CASE BEING HEARD ON WRIT OF HABEAS CORPUS

INTEREST GROWS IN ROWLAND CASE

State Presenting Important New
Evidence to Prevent Prisoners
Getting Bail.

WERE LONG ACQUAINTED

Engineers Testify That Dr. Rowland and Wife Knew Each
Other for Years.

RALEIGH, N. C., July 23.—The State is presenting vital new evidence in the famous poisoning case against Dr. and Mrs. D. S. Rowland to combat the writ of habeas corpus being heard by Associate Justice H. G. Connor, of the Supreme Court, and it looks now like the effort to secure bond will fail and the prisoners must speed the summer languishing in jail until September Court. The last witness to-day, J. A. Allison, was to prove the sale of a quantity of acconitine two days before the death of Chas. R. Strange, who is alleged to have been Dr. Rowland's victim, with Strange's wife, now Mrs. Rowland as an accomplice. The records proving the sale were offered, but went over until to-morrow morning for the presentation of some technicality as to the presentation of the evidence.

The prosecution proved by H. J. Stewart and others that the condition of the body of Strange during the night following the death was such as would have been brought about by acconitine poison, and the conduct on the part of Dr. Rowland and Mrs. Strange, now Mrs. Rowland, showed that a great strain was upon them, such as might be produced by the commission of the crime.

Were Well Acquainted.
By Engineer Tighe, Engineer Steele and others it was proven that Rowland and Mrs. Strange were well acquainted a long while before the death of Strange, whereas both in conversations at the time of the death declared that they had never met before, and Mrs. Strange said "Telephone Central" had sent Dr. Rowland because she asked that she send some good doctor when she (Mrs. Rowland) had already called Dr. Rogers and Dr. Goodwin, and found them out. The evidence was that she called direct to Dr. Rowland's office and told him her husband was "slightly sick" and to come to see him.

There was evidence that was intended to prove that Dr. Rowland was in some way responsible for the wreck of Seaboard train, No. 84, a few days before the death of Strange, last April, this being the train which Strange was running. However, this evidence was not developed, Colonel Argo declaring for the prosecution that they know "more about that wreck than the defense dreamed they did," and Colonel J. C. L. Harris, for the defense, replying that they "knew as much about it

Men Hurt.

[Special to The Times-Dispatch.]
FREDERICKSBURG, VA., July 23.—The engine drawing the Seaboard Air Line train, due here at 10:30 this morning, was derailed by a freight train, which was on the bridge over the Rappahannock River at this place turned over and one mail car was thrown off the track. As the train neared the bridge the engineer found the block closed. He put the brakes on, but they did not work promptly, and the train went through the block. The engine was purposely derailed on that side of the bridge, as a freight train was due and a few moments later the freight train, which was on the bridge, was derailed. The engine was seriously injured. His foot was mangled, his head cut and his body painfully burned. John Hargrave, the fireman, was slightly injured. The passengers were unhurt. A large crowd from this city went to the scene of the wreck. Physicians from this city were summoned, and the wounds of the engineer and fireman were dressed. Engineer O'Brien was taken to the Mary Washington Hospital here. The track was blocked for several hours.

SUFFERED WITH ECZEMA 25 YEARS

Limb Peeled and Foot Was Like
Raw Flesh—Had to Use Crutches,
and Doctors Thought Amputation
Necessary—Montreal Woman
Writes of Cure Seven Years Ago.

[Special to The Times-Dispatch.]
MONTREAL, QUE., July 23.—"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My doctor advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, 'Try them if you like, but I do not think they will do any good.'"

At this time my leg was peeled from the knee, my foot was like a piece of raw flesh, and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment, and a bottle of Cuticura Lotion. After the first two treatments the swelling went down, and in two months my leg was cured and the new skin came on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use it for his own patients. I used two cakes of Cuticura Soap, three boxes of Ointment, and five bottles of Lotion. I have now been cured over seven years, and but for the Cuticura Remedies I might have lost my life. I have lots of grandchildren, and they are frequent users of Cuticura Ointment. I always recommend it to the many people whom my business brings to my home every day. Mrs. Jean-Baptiste Renaud, clairvoyant, 277, Metana St., Montreal, Que., Feb. 20, 1907.

GUARD SHOT TWO CONVICTS.

Prisoners Had Empty Revolvers at Him
When He Fled.
ATLANTA, GA., July 23.—As a result of a determined attempt to escape from the brick yard in the Western part of the city to-day two white convicts, Ben Bailey and H. L. Hartman, are believed to be fatally wounded.

The plot was evidently carefully arranged, and the men, having gained possession of revolvers, emptied them at O. Duncan, the guard, who failed to react. They then and he opened fire on the fleeing men. Bailey fell, shot through the abdomen, and Hartman received a bullet through his shoulder and spine. Both men had run two hundred to three hundred yards when they were shot. Another convict, Luther Gibson, seeing the fate of his companions, surrendered.

Union Stove Company, Inc., Richmond, Va.

said to-day that the direct cause of the failure was the inability of the petitioner to collect amounts due on different contracts and the failure to realize on previous stocks. Mr. Tatterton had just contracted for the erection of the Naval Y. M. C. A. Building, to cost about \$225,000, donated to the Norfolk branch of the association by John D. Rockefeller. The following buildings have either just been completed, or are now being built by Mr. Tatterton: The big Miller, Rhoads & Swartz Annex, Plum Street, Norfolk; John Smith Inn, Cape Henry; Hotel Apartments, Norfolk; Crystal Laundry, Norfolk; Lynn Haven Hotel, Norfolk; Fairfax Hotel, Norfolk; building for the Gibbs Preserving Company, Baltimore; building for the Stone Printing and Publishing Company, Roanoke, and the Vinery Building, Norfolk.

Judge Waddell will be in Norfolk Friday morning to hear a motion made for a receiver for Mr. Tatterton. A court order was entered by the judge, who is at Old Point, directing that the business of the petitioner be continued pending the hearing on the motion.

Some of the heavier creditors of Mr. Tatterton are W. H. Collins, building material, \$11,236.42; Nottingham & Wrenn Company, building material and coal, \$14,801.90; Frank T. Clark & Co., Limited, \$16,927.75; Metropolitan Company, \$8,500; Marine Bank, \$5,000.

Mr. Tatterton hopes to pay all of his debts and resume operations within three months. He claimed no homestead exemption under the bankruptcy act and property owned by Mrs. Tatterton has been mortgaged to help him. Banks yesterday refused to renew Mr. Tatterton's loans.

DOVER ASSOCIATION MEETS.

Reports from Richmond Churches Make Good Showing.
[Special to The Times-Dispatch.]
TAYLORVILLE, VA., July 23.—The Sunday-School and Bible Board of the Dover Baptist Association elects its officers at the close, instead of at the beginning of its session; hence, when the historic body met this morning in Taylorville Church, at this place, when the gavel of Moderator H. Ellett fell it was ready for business.

The sessions to-day were devoted to a discussion of the churches in the mid-section of the body—the Richmond churches—and to evangelism, the Laymen's Movement and the Sunday-schools and Bible board. The reports from the churches indicated show encouraging growth and development, and a very interesting discussion followed. The reading of these reports, Dr. William H. Whitely, W. R. L. Smith, James B. Taylor and George W. McDaniel made the address on the subject of Evangelism, and Rev. W. E. Robertson, of Richmond, and Dr. J. M. Pletcher, of Petersburg, the secretary of the Sunday-Schools, discussed Sunday-schools entertainingly. Prof. W. A. Harris had charge of the new enterprise of the Baptists, known as the Laymen's Movement. Professor Harris and Mr. R. A. Gary spoke.

It is excessively hot, but with an ample supply of cold fruit, fans, linens and the large crowd present keep comfortable. The hospitality of this part of old Hanover is generous and the many friends of children and buttermilk abound.

The officers of the association are T. H. Ellett, moderator; Arthur H. Clarke, vice-moderator; W. H. Sadler, clerk, and J. B. Walthall, treasurer. Many interesting topics will be considered to-day.
